About me

My name is Pham Thi Thu Uyen, I am 20 years old, and I come from Dak Lak. Currently, I am living, studying, and working in Da Nang CIty. Through my studies at FPT Polytechnic and VTI Academy, I have gained experience in creating websites based on client requirements.

Experience

An_University Website
Sep 2024 - Sep 2024

ReactJS - Bootstrap

The An_University website is built using ReactJS and Bootstrap. It is designed to promote the university's image, featuring images, videos, information about the school, and allowing users to send emails or contact the university.

The World of Furniture website
Sep 2024 - Sep 2024

PHP Laravel - MySQL - Bootstrap

The World of Furniture website is built using PHP Laravel, with MySQL for data management and Bootstrap for the user interface. Customers can browse products, add items to their wishlist or shopping cart, fill in their information to make a purchase, and pay with cash.

CRUD Manager
Oct 2024 - Oct 2024

Java & MySQL

This is a basic website, including a homepage and a student list page, with functionalities for adding, editing, deleting, and displaying. Additionally, it includes a search feature.

Soft Skills

Effective teamwork skill   Confident presontation skill
